

Meet Alfacash

Our team has been running a crypto-exchange business since 2012: we have seen the cryptocurrency world grow and thrive against all the odds. We are certain, this will be the world's future, and we will see exponential growth in usage of cryptocurrencies.

How we work

Using Alfacash, you can easily buy and sell cryptocurrencies with a credit card or debit card (VISA, Mastercard). Our platform is an instant, non-custodial crypto exchange which supports more than 28 cryptocurrencies, including Bitcoin (BTC), Ethereum (ETH), XRP (XRP) and Litecoin (LTC). Alfacash allows users to swap crypto in three simple steps:

- ▶ Sign up, accept our legal terms and provide us with basic information about yourself*
- ▶ Choose exchange direction, complete order detail and send us the exact amount of crypto or fiat (use promo code for a discount if applicable)
- ▶ Receive your funds in just a few minutes!

** process may differ depending on exchange direction*

Handy features

Referral program

Earn up to 20% commission for every referred user during one year

Alfacash referral partners have earned up to \$10,000 monthly with their referrals. All you have to do is sign up on the alfa.cash website. Once the signup process is complete you will receive access to an account where you will find all the promotional materials you need, including banners, partner links, etc., as well as traffic statistics for your partner link.

Start earning in 3 easy steps:

- ▶ Create an account or Log in to retrieve your referral link.
- ▶ Send your referral link to people you think would like to use Alfacash!
- ▶ Earn up to 20% commission for every referred user during one year.

API integration

Earn with Alfacash widget

Alfacash widget API allows your site visitors to exchange various currencies without visiting alfa.cash. Integrating the Alfacash widget, you get the full automatically exchanger on your website without complicated API integration. Our partners receive a percentage commission based on the value of the financial transactions performed by any invited customer.

For developers

Integrate instant exchange on your website with [Alfacash API](#). It's an ideal solution for those who have their own website, wallet or some kind of cryptocurrency related service.
